

Dear Sirs

I understand you are considering actions that will weaken the "Do Not Call" registry in New Jersey. Please reconsider. Telemarketers are intruding into our lives without our consent, deliberately calling during the dinner hour and evening. There are so many other ways of reaching clients, restricting this practice to those who wish to continue to receive calls only makes sense. Especially since I understand they are now able to call to cell phones - meaning the call recipient not only gets a call they do not wish to have, but must pay to receive it. It brings new meaning to paid advertising.

I ask that you not tamper with New Jersey's "do not call" laws.
